

Vehicle inspection, repair and maintenance standards are critical to the safe operation of commercial motor vehicles. They are designed to reduce accidents, injuries and fatalities resulting from unsafe vehicles operating on the highways.

### Commercial Motor Vehicle:

“Commercial Motor Vehicle” means a motor vehicle or combination of motor vehicles used to transport passengers or property if the motor vehicle:

1. Has a gross vehicle weight of more than 26,000 pounds
2. Has a towed unit with a gross vehicles weight of more than 10,000 pounds
3. Is a bus
4. Is of any size and is used in the transportation of hazardous materials, except for those vehicles having a gross vehicle weight of 26,000 or less while carrying in bulk tanks a total of not more than 200 gallons of petroleum products and liquid fertilizer

Once you have been certified as a Minnesota Commercial Vehicle Inspector, you must be re-certified every two years. You have 6 months after your expiration date to be re-certified, but you are unable to inspect during this 6-month period.

### NOTE:

You **cannot** attend the re-certification class if:

- Your certification has been expired beyond the 6 months
- Your certificates is under revocation
- You have already attended a re-certification class and failed the exam.

If any of these have occurred, you will need to take the original 8 hour Certification class and examination.

### Certification Class Information:

For dates and locations of the 8 hour Certification Classes, please call Alexandria Technical College, 320-762-4490

**Check your certification expiration date... It may be time for you to re-certify.**

If you have any questions, please call the South Central College Center for Business & Industry Nancy Sack, 507-389-7217 Toll Free 800-722-9359
